DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application on 01 September 2005, after appeal to the Board of Patent Appeals and Interferences. Therefore, the appeal has been withdrawn pursuant to 37 CFR 1.114. The request, however, lacks the submission required by 37 CFR 1.114. Since the proceedings as to the rejected claims are considered terminated, the application will be passed to issue on allowed claim 29. Claims 1-28 and 30-34 been canceled. See MPEP 1215.01.

Allowable Subject Matter

2. Claim 29 is allowed.

3. The following is an examiner's statement of reasons for allowance:

Although, the best prior art of the record to Good teach the automated identification and measuring system, however, Good and Moed taken alone or in combination of other references, fail to specifically teach or fairly suggest that the automated identification and measuring system comprises a orientation means for determining an orientation of each objects on the transport means using the positional information and information capture means for obtaining information from each object wherein the image capture means includes a plurality of scanning means where each scanning means is simultaneously focused based on the orientation of the objects on the transport means as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Additional Remarks

4. Election was made with traverse in response filed on 20 March 2002. However, the examiner acknowledges that the applicant's election was made without specific argument or reasoning. Therefore, the examiner considered that the election was made without traverse (see Paper NO. 4 mailed out 04 April 2002).
